▼ Receiving and replying to messages*

SMS (Short Message Service) messages received by the connected Bluetooth® device can be downloaded, displayed on the centre display, and read out in artificial voice. In addition, preset replies can also be made to calls and messages in the received messages.

NOTE
You need to make settings to your Bluetooth® device depending on the Bluetooth® device you are using.

Downloading messages

You can download up to 50 recent messages from a connected Bluetooth® device and display them.

Automatic downloading

When the Message Sync setting is turned on, messages are automatically downloaded when the Bluetooth® device is connected.
Refer to Communication Settings on page 5-20.

Manually downloading

If the Message Sync setting is turned off, messages can be downloaded using the following procedure.
1. Select "Communication" on the home screen.

2. Select "Text Messages".

3. When "Update List" is selected, the messages are downloaded from your Bluetooth® device.

NOTE

- *Attached data is not downloaded.*
- *Messages up to 160 characters can be downloaded.*
- *The messages that are stored are exclusive to each paired Bluetooth® device to protect privacy.*
- *The short message function uses the Bluetooth® MAP profile.*
- *To receive and reply to messages from your Bluetooth® device, operations and settings may be necessary on the Bluetooth® device side in addition to this unit. For details, refer to the Bluetooth® device's owner's manual.*
