

MAZDA6

PRICE AND SPECIFICATION GUIDE

WELCOME...

The Mazda6 is the executive car that provides a true sense of exclusivity. Our Takumi Master Craftsmen focus on every intricate detail. Whether it be the soft-to-the-touch quality materials that adorn the cabin, or the intricate leather steering wheel stitching found on the range topping GT Sport, every care has been made to make the driver and their passengers feel supremely cossetted.

But it isn't all about the levels of comfort that Mazda6 provides, it is also about the drive. A driver centric cabin with controls that fall easily to hand, allow you to focus on the road ahead, whilst the superb chassis ensures that with every corner, you can feel the road whilst enjoying the fantastic handling. The Mazda6 will cater for your every need.

Stylish and well equipped

With the Mazda6, we have taken our passion for cars beyond and created a car that knows no compromise. Its impressive design continues to excite you once you step inside. Here, you will find high levels of specification as standard, including a windscreen projected colour Active Driving Display, Mazda Radar Cruise Control and Mazda Connect infotainment, all designed to make your driving experience safer and more enjoyable.

Safety

When it comes to safety, you're in good hands. The Mazda6 has been awarded the maximum five-star rating by Euro NCAP. With superb safety equipment as standard such as Advanced Smart City Brake support, Blind Spot Monitoring and Rear Cross Traffic Alert, for a more re-assuring drive, everytime.

This Price & Specification Guide has been designed to enable you to discover more about the Mazda6 as well as its key features, what they do, along with key technical specification making it easy to find the information you need.

So what are you waiting for...

THE LATEST IN TECHNOLOGY & CONVENIENCE

MAZDA CONNECT

The latest in-car infotainment

Mazda Connect allows for seamless connectivity between you and your Mazda. Information is displayed on a beautiful & clear central 8" screen which is perfectly positioned at eye level.

Access vehicle information and settings, entertainment options including DAB Radio, connect your smartphone via Bluetooth to make and receive calls, access your phonebook, and access the European wide Navigation system which comes with 3-years free map updates.

MULTIMEDIA COMMANDER

Easy to use, driver centric, eyes on the road

The Multimedia Commander provides simple and easy access to the Mazda Connect infotainment system. The tactile feel plays to the senses allowing for ease of use whilst on the move, and more importantly, allows you to keep your eyes on the road.

APPLE CARPLAY® & ANDROID AUTO™ Smarter, safer way to use your smartphone

With wireless Apple CarPlay®, get easy access to Apple Music, Maps, Messages and make phone calls with Siri through the car's Multimedia Commander or voice commands.

Android Auto™ also allows you to access your favourite music and messaging apps, Google Maps and Google Play Music. Google Assistant voice control helps you send and receive messages, make calls, get directions and plan your day while you keep your eyes safely on the road.

BOSE PREMIUM SOUND SYSTEM

Made to move you

Fitted as standard to selected grades, the high performance speakers make you feel like you're at the front row of your favourite concert, making you feel immersed in whatever you're listening to.

The premium sound system includes all of the latest Bose technologies such as CenterPoint, BassMatch and AudioPilot which all contribute to an immersive entertainment experience.

THE FLEXIBILITY TO FIT INTO YOUR LIFE

ACCOMMODATING CARGO SPACE TO FIT YOUR NEEDS

Additional space when you need it

Whether it be for a business trip, weekly shop or even for a weekend getaway, with a large flexible luggage capacity, the Mazda6 allows you to bring everything that you need.

The saloon provides a large 480 litres of space, and where needed, the rear bench seats can be folded down. For those that need even more space and practicality, the Tourer provides a cargo space of 522 litres, and with Mazda's unique Karakuri 60:40 split, easy-fold seat mechanism, this can increase to a cavernous 1,664 litres of space.

SKYACTIV ENGINE TECHNOLOGY

SKYACTIV-G

The Skyactiv-G engines are highly-efficient direct-injection petrol engines, that achieve impressive efficiency thanks to the high compression combustion, resulting in excellent fuel economy and low CO₂ emissions.

Skyactiv-G also features cylinder deactivation*, delivering further improvements in economy and efficiency by automatically switching between two-cylinder and four-cylinder operation when cruising at constant speeds and not when under heavy loads. The engine shuts down two of the four cylinders with fuel injection and injection timing precisely controlled, so that the cylinder deactivation isn't noticeable to the driver.

i-ELOOP[^]

The i-ELOOP system recovers energy while decelerating and braking. The recovered energy is used to power electrical systems such as the audio, air conditioning and headlights to take away stress from the engine.

i-stop

While conventional idling stop systems rely on a starter motor to restart the engine, Mazda's i-stop restarts the engine through combustion. The result is a quick and quiet engine re-start compared to other systems and a significant saving in fuel.

*194ps Auto GT Sport only. [^]165ps and 194ps Skyactiv-G only.

SKYACTIV-VEHICLE DYNAMICS: TRANSMISSIONS, CHASSIS AND BODY

TRANSMISSIONS

SKYACTIV-MT is a light and compact manual transmission system that combines superior fuel economy with the crisp shifting feel of a sports car, ensuring perfect control.

Also available is Mazda's highly efficient, 6-speed SKYACTIV-DRIVE automatic transmission. Featuring the best attributes of CVT, Dual Clutch and conventional automatic transmissions, SKYACTIV-DRIVE provides you with a direct feel with smooth gear shifts leading to great fuel economy.*

SKYACTIV-CHASSIS

Providing a lightweight chassis that delivers driving pleasure and comfort, leading to that pure 'Jinba-ittai' oneness between car and driver. The perfectly fine tuned chassis provides our famed driving experience of agility at low and medium speeds, and stability at motorway speeds for both driving pleasure and comfort.

SKYACTIV-BODY

For a car to excel in its basic functions - accelerate, turn and stop - it must have a lean body, but also be sturdy to ensure safety. Mazda6's body has been designed around these elements leading to a light, rigid and robust body that ensures safe and joyful driving.

The Mazda6 performed impressively in all four of Euro NCAP crash test categories – Adult Occupant, Child Occupant, Vulnerable Road User (pedestrian safety) and Safety Assist, and even achieved an exceptional 95% score in the Adult Occupant category.

*SKYACTIV-DRIVE Automatic Transmission is available on selected grades.

ADVANCED TECHNOLOGY

COLOUR ACTIVE DRIVING DISPLAY (HEAD-UP DISPLAY)

The system includes Traffic Sign Recognition and projects full-colour information directly onto the windscreen within the driver's line of sight. The displayed information is divided into upper and lower sections: driving information, including navigation, turn-by-turn direction and speed limit information displayed in the upper section, while vehicle status, including current speed and advanced safety equipment status, is displayed in the lower section.

(Standard across the range)

DRIVER ATTENTION ALERT

Designed to reduce accidents caused by inattentiveness due to driver fatigue. The system comes into play at speeds above 40mph and begins to “learn” the driver's habits, watching inputs and the vehicle's movements in the early stages before fatigue is a factor. Later, if the system detects changes in vehicle behaviour that suggest the driver may be losing concentration, it will suggest a rest stop by sounding a chime and displaying a warning in the Multi-Information Display.

(Standard on GT Sport models)

ADAPTIVE FRONT LIGHTING SYSTEM

One of the most important factors in mitigating driver fatigue and increasing safety during night driving is providing a well-illuminated field of view. The Adaptive Front-lighting System optimises distribution of light from the headlights according to driving circumstances. Depending on vehicle speed and steering input, the system points the low-beams headlights in the direction the driver intends to travel.

(Standard on Sport models only)

ADVANCED TECHNOLOGY

ADAPTIVE LED HEADLIGHTS

Mazda's Adaptive LED Headlights provide the ultimate in headlight technology, lighting up the road ahead as if it were daytime and allowing anybody to enjoy safe and stress-free driving at any time of day. The system increases visibility at night to help drivers stay vigilant by combining three technologies: Wide-range Low Beams which light up a wider area at low speeds, Highway mode which helps you see further when travelling at speed, and Glare-free High Beams which automatically dim part of the illuminated area to avoid dazzling other drivers.

(Standard on GT Sport models)

BLIND SPOT MONITORING (BSM) WITH REAR CROSS TRAFFIC ALERT (RCTA)

BSM uses radars mounted in the rear bumper to detect vehicles approaching from behind and in the adjacent lane. It alerts the driver to the presence of vehicles in the blind spot on either side by displaying an icon in the appropriate door mirror. If the driver indicates to change lanes with a vehicle in the blind spot, the icon flashes and a warning beep is sounded. RCTA is designed to help you make sure it's safe to start backing up. The system uses the same radars and indicators as BSM to watch for vehicles coming from both sides and alert the driver when they come near.

(Standard across the range)

LANE-KEEP ASSIST SYSTEM (LAS) WITH LANE DEPARTURE WARNING SYSTEM

Designed to prevent your vehicle from inadvertently straying from its lane. A front view camera monitors the road ahead and calculates the car's position relative to the lane markings. If the system detects the vehicle is moving out of its lane unintentionally, the steering wheel will vibrate and an audible alert will sound. The system will also take corrective action to help you stay within the lanes through assisted steering.

(Standard across the range)

ADVANCED TECHNOLOGY

MAZDA RADAR CRUISE CONTROL

To activate, the driver sets a maximum speed (just as with cruise control) and size of the gap to maintain. The radar watches for traffic ahead and once the system senses a vehicle in front, the car will slow down and speed up automatically maintaining the drivers pre-set distance. Automatic models also have the additional feature of 'Stop & Go', meaning the vehicle will automatically accelerate and brake in start/stop traffic with minimal input from the driver.

(Standard across the range)

SMART CITY BRAKE SUPPORT – FRONT

Alerts the driver of a possible collision using the warning indications in the display and a warning sound if the front radar sensor and Forward Sensing Camera determine that there is the possibility of a collision with a vehicle ahead, pedestrian, or a bicycle. Furthermore, if a collision is unavoidable, the automatic brake control is performed to reduce damage in the event of a collision. In addition, when the driver depresses the brake pedal, the brakes are applied firmly and quickly to assist.

(Standard across the range)

SMART CITY BRAKE SUPPORT – REAR

Reduces damage in the event of a collision by operating the brake control when the system's sensors detect an obstruction at the rear.

(Standard on GT Sport models)

MAZDA SERVICES

MAZDA SERVICE PLANS

| MODEL | ENGINE | PRICE |
|--------|------------|---------|
| Mazda6 | SKYACTIV-G | £679.00 |

Take the hassle out of servicing your car by opting for a Mazda Service Plan from your Mazda dealer. For a one off payment or manageable monthly sum, your annual Mazda servicing can be covered for up to 3 years. Contact your Mazda dealer for more information on the options available. At participating dealers only.

The maximum service interval for your Mazda is 12,500 miles or 12 months whichever occurs first, however, the servicing intervals may reduce based on the style of driving and the conditions under which your vehicle is operated.

Mazda Service Plans cover parts, labour & fluids at the prevailing VAT rate for the first three scheduled services. You have the choice of paying for your Mazda Service Plan with a one-off payment, or by monthly Direct Debit payments over the duration of the Plan. Please contact your Mazda Authorised Dealer for more information. The servicing for Mazda Service Plans can only be carried out at a Mazda Authorised Dealer. At participating Dealers only and plan must be activated prior to the vehicle's first service.
