ALL-NEW MAZDA6e

PRICES & SPECIFICATIONS

ALL-NEW MAZDA6e

Introducing the all-new Mazda6e, a bold new chapter in the evolution of the iconic Mazda6. Fully electric and crafted with Japanese soul, the Mazda6e represents Mazda's commitment to design excellence, innovative technology and an unmistakable driving experience.

Guided by Mazda's award-winning Kodo: Soul of Motion design philosophy, the Mazda6e combines smooth, flowing lines with a coupé-inspired silhouette to create a dynamic and elegant presence. The illuminated Signature Wing adds a distinctive modern touch, completing its confident on road character.

Inside, a beautifully crafted, driver-centric cabin blends premium materials with the Japanese concept of 'Ma', the beauty of empty space, to create a calm, refined environment. The monoform seats with premium feel, refined stitching and satin accents reflect the meticulous craftsmanship throughout.

The Mazda6e is now offered with a single, optimised electric powertrain, carefully engineered to deliver the best balance of performance, efficiency and real-world range. With fast-charging capability, you spend less time charging and more time driving, gaining 30-80% of range in just 15 minutes[1] and enjoying up to 348 miles of all-electric driving.

Comprehensively equipped as standard across two clear specification levels, the Mazda6e delivers advanced safety, versatility, connectivity and comfort features as part of a confident, refined and engaging electric driving experience.

The future of Mazda electric mobility begins here.

6 YEAR | MAZDA WARRANTY

CRAFTED WITH JAPANESE SOUL

[1] For further details on charging times, please refer to page 25.

A LEGACY OF TRUST, NOW ELECTRIFIED

For decades, Mazda has built vehicles that drivers love. From the original Mazda 626 to the award winning Mazda6, each model has earned a loyal following through thoughtful design, engaging driving dynamics and everyday reliability. Generations of customers have grown up with these cars, creating memories, trust and a sense of connection to the Mazda name.

The all-new Mazda6e builds on this proud heritage, bringing Mazda's legacy of craftsmanship, performance and driving pleasure into the modern era. Every line, every detail and every feature is a continuation of the values that have made the Mazda6 a trusted companion for so many.

Now fully electric, the Mazda6e offers the same confidence, elegance and driving engagement that generations of Mazda owners have cherished while embracing the future of mobility. This is the Mazda you know, reimagined for today and ready for tomorrow.

THE LATEST IN TECHNOLOGY & CONVENIENCE

A WELCOMING PRESENCE

The all-new Mazda6e greets you with a face that is unmistakably Mazda. Bold, refined, and immediately familiar, yet enhanced with a new illuminated front grille that signals both elegance and modernity. Approach the vehicle with the key in your pocket or Bluetooth® key activated, and Mazda's signature Omotenashi comes to life: the front signature wing and rear through-flow taillights illuminate, the mirrors extend gracefully, and the door handles present themselves, all in quiet harmony with your arrival.

Even the new electrically extendable rear spoiler can extend automatically whilst the driver's seat subtly moves back to welcome you in, and one of the 64 ambient lighting colours glow creating a sense of invitation and anticipation before you even touch the car.

FULL PANORAMIC GLASS ROOF

Included on every grade of Mazda6e, a full panoramic glass roof floods the cabin with natural light, creating an airy, open atmosphere that enhances every journey. The tinted, heat-reflective glass keeps the cabin comfortable while maintaining a sense of connection to the outside world.

On Takumi Plus models, a full electric sunshade provides effortless control, allowing you to enjoy the perfect balance of light and shade at the touch of a button.

THE LATEST IN TECHNOLOGY & CONVENIENCE

SMART COCKPIT TECHNOLOGY

Stay connected in the all-new Mazda6e, with this new 14.6 inch central screen. Positioned perfectly at eye level, you can keep key information, from driving range to energy use, right where you need it. Enjoy your favourite entertainment with DAB+ Radio, or seamlessly connect your smartphone via Bluetooth® to make calls, access contacts and apps. The integrated navigation system guides you on any journey you wish to take with EV charging locations on route whilst making full use of the large head-up display.

WIRELESS APPLE CARPLAY® & ANDROID AUTO™

A Smarter, safer way to use your smartphone

With wireless Apple CarPlay®, get easy access to Apple Music, Maps, Messages and make phone calls using your voice with Siri or through the clear large central touchscreen.

Wireless Android Auto™ also allows you to access your favourite music and messaging apps, Google Maps and YouTube Music. Google Assistant voice control helps you send and receive messages, make calls, get directions and plan your day while you keep your eyes safely on the road ahead.

THE LATEST IN TECHNOLOGY & CONVENIENCE

VOICE AND GESTURE CONTROL

In the all-new Mazda6e, technology responds naturally to you. Advanced voice and gesture control allow you to interact with key vehicle functions using simple, intuitive commands, so you can adjust settings, access information, or navigate your journey without taking your hands from the wheel or your eyes from the road.

Designed around the driver, these intelligent systems feel seamless and unobtrusive, enhancing comfort and control without distraction. It is a more human way to connect with your car, creating a sense of harmony between driver and technology that makes every journey feel effortless.

PERSONALISED AROUND YOU

The all-new Mazda6e adapts intuitively to your preferences, allowing you to personalise key functions around the way you drive. Frequently used features can be stored along the lower edge of the central display for quick access, while two programmable favourite buttons on the steering wheel let you control your most important features with a single touch.

From three-stage heated front seats in winter, to ventilated comfort in summer, your perfect setting is always just a few taps away.

Designed to feel natural and effortless, this level of customisation places everything exactly where you need it, creating a driving environment that feels uniquely yours — refined, intuitive, and perfectly in tune with you.

THE LATEST IN TECHNOLOGY & CONVENIENCE

SONY PREMIUM SOUND SYSTEM

Equipped with a 14-speaker Sony premium sound system, the all-new Mazda6e delivers rich, immersive audio throughout the cabin. Precisely tuned for the interior space, it creates a balanced and refined soundstage that brings every playlist, podcast, and call to life with exceptional clarity.

Two discreet speakers integrated into the driver's headrest provide a more personal listening experience, allowing navigation instructions and phone calls to be delivered directly to the driver without disturbing other passengers. It is intelligent, considered design which enhances connection, comfort, and focus for every journey.

WIRELESS CHARGING & CONNECTIVITY

The all-new Mazda6e features a 50W air-cooled wireless charging system designed to keep your devices powered effortlessly throughout your journey. Simply place your compatible smartphone in the charging tray and let intelligent cooling manage heat for consistent, reliable performance. Subtle, seamless, and thoughtfully integrated, it is one more way Mazda makes everyday technology feel naturally part of the driving experience.

For added connectivity, the cabin is equipped with two USB-C ports, one USB-A port, and a 12V socket, ensuring all your devices stay charged and ready — whether you are navigating, streaming, or working on the move.

SPACE TO MOVE WITH YOU

Designed to fit seamlessly into modern life, the all-new Mazda6e offers exceptional practicality with the versatility of a hatchback. The spacious boot provides 466 litres of capacity, increasing to 1,074 litres with the rear seats folded flat, giving you significantly more loading space than a traditional saloon. With 60:40 split rear seats, the cabin adapts effortlessly to whatever your journey requires. From everyday errands to weekend escapes, or carrying sports and leisure equipment for adventures further afield.

Adding to its thoughtful design, a 72-litre front storage compartment offers a convenient place for small bags, or other essentials, along with a false floor for storing charging cables, keeping the main boot free for larger luggage. Cleverly integrated and elegantly finished, the Mazda6e's storage solutions are designed to feel natural and intuitive, turning every journey into a more relaxed and organised experience. It is a refined approach to space, where flexibility, functionality, and elegance work in perfect harmony.

DYNAMIC REAR SPOILER

A Mazda first, the new electrically extendable rear spoiler responds intuitively to your driving. It rises or retracts automatically at specific speeds, or can be set to remain open or closed, giving you complete control over aerodynamics, style, and the car's dynamic presence on the road. Thoughtfully integrated into the rear design, it blends seamlessly with the flowing through-flow tail lights, while perfectly balancing the bold elegance of the new illuminated front grille.

Every movement is smooth, precise, and considered, reflecting Mazda's commitment to harmony between design and function. Whether enhancing stability at higher speeds or adding a subtle flourish as part of the car's striking silhouette, the spoiler is as purposeful as it is elegant. Another detail that elevates the Mazda6e's presence while reinforcing its refined, driver-focused character.

EFFORTLESS TOWING

When chosen as a dealership fitted option, the fully retractable electric towbar is seamlessly integrated into the rear design and hidden from view when not in use. With the touch of a button, it deploys smoothly, ready to support your next adventure.

With a braked towing capacity of up to 1,500kg, the Mazda6e offers confident capability for its class. Whether you are towing a caravan for a weekend escape or carrying bikes for a family getaway, it delivers composed, stable performance with refined ease. Always ready when you are, and discreet when you are not.

EQUIPMENT

COMFORT AND CONVENIENCE		TAKUMI	TAKUMI PLUS
Air-conditioning	Dual-zone climate control air-conditioning with rear air-vents	●	●
Air Purifier	Breathe easier with PM2.5 filtration that removes fine pollution particles for a cleaner cabin	●	●
Cruise Control	Mazda Radar Cruise Control (MRCC) (features Stop & Go function) - The Adaptive Cruise Control system is designed to make driving more relaxed and comfortable. It automatically maintains a set cruising speed while keeping a safe distance from the vehicle ahead. The system adjusts acceleration and braking for you, so there's no need to constantly press the accelerator or brake pedals	●	●
Cruising & Traffic Support (CTS)	Where conditions allow, assists driver with accelerator, brake and steering functions when following a vehicle ahead in heavy traffic, helping to reduce driver fatigue	●	●
Drive Modes:	- Comfort mode: achieves the optimum balance between driving performance, steering feel and regenerative braking	●	●
	- Sport mode: maximises responsiveness. It increases vehicle response when the accelerator pedal is depressed and accelerates powerfully, increases the level of regenerative braking, stiffens up the steering feel and increases the brake pedal feel	●	●
	- Individual Mode: allows user defined settings for steering wheel feel, regenerative braking force, brake pedal input and accelerator pedal feel.	●	●
Electric windows	Front & rear with one-touch auto down / up	●	●
Gesture Control	Using hand signals can control certain HMI controls within the car, such as pausing or restarting music along with turning up or down the volume	●	●
Head-up Display	Large Windscreen Projected colour Active Driving Display: Projects full-colour information directly onto the windscreen within the driver's line of sight, including navigation, speed, battery level and vehicle status	●	●
Interior Lighting:	Front LED illumination spot lamps in overhead console	●	●
	Rear LED illumination	●	●
Interior Ambient Lighting	64 colour options are selectable which indirectly illuminate across the dashboard, around the front cup holders and appear in the upper portion of the front seats	●	●
Luggage Compartment	LED illumination	●	●
Over-The-Air (OTA) Updates	Allows your vehicle to receive enhancements and new features remotely, ensuring it remains current and continues to improve throughout ownership	●	●
Rear Function Touchscreen:	- Featuring temperature and front passenger seat movement controls. Rear Touchscreen can be locked by front centre touch-screen display	●	-
	- Featuring temperature, front passenger seat movement and electric sunshade controls. Rear Touchscreen can be locked by front centre touch-screen display	-	●
Side-View Monitor	When indicating at slow speeds the front wheel of that direction is shown on 14.6-inch colour centre touch-screen display to make manoeuvring easier	●	●
Sun visors	Driver and front passenger with vanity mirror	●	●
Vehicle Modes: - 6 modes are available to assist with a one-touch solution to certain tasks	- Car Wash Mode	●	●
	- Leaving Mode	●	●
	- Relax Mode	●	●
	- Fresh Air Mode	●	●
	- Private Mode	●	●
	- Rest Mode	●	●
Voice Recognition	"Hey Mazda" is fully integrated into the car to assist with navigating menus and operating features such as windows, cabin temperature and route guidance	●	●

●= Standard equipment, – = Not available, ❍ = Optional as part of a pack. Specification and naming conventions are subject to change.

EQUIPMENT

SAFETY AND SECURITY		TAKUMI	TAKUMI PLUS
Airbags	Single stage front driver & passenger	●	●
	Front and rear side airbags	●	●
	Front central airbag	●	●
	Front and rear curtain airbags	●	●
	Passenger airbag deactivation system (auto switch)	●	●
Anti-lock Braking System (ABS)		●	●
Blind Spot Monitoring (BSM)	Using radars mounted in the rear bumper to detect vehicles approaching from behind and in the adjacent lane. It alerts the driver with audible and visual warnings to the presence of vehicles in their blind spot on either side of the vehicle	●	●
Child Presence Detection (CPD)	If movement is detected in the rear of the vehicle an audible warning will alert the driver when the driver's door opens	●	●
Door Opening Warning (DOW)	Assists the driver in checking the rear of the vehicle when exiting the vehicle. When a vehicle or bicycle approaching from the rear is detected, various screen displays and warning sounds notify the driver of the danger	●	●
Driver Attention Alert (DAA)	The system monitors driver inputs and the vehicle's movements to sense the early stages of driver fatigue.	●	●
Driver Monitoring (DM)	A camera monitors the driver's facial movements to detect driver fatigue, encouraging the driver to take a rest where needed	●	●
Dynamic Stability Control (DSC)	Automatically controls braking and engine power output in conjunction with systems such as the ABS and TCS to help control side slip when driving on slippery surfaces, or during sudden or evasive steering, which enhances vehicle stability	●	●
e-Call with GPS	In the case of an accident, either provides a manual or automated message to the emergency services, which includes the vehicle's location. (European locations only).	●	●
Emergency Lane-Keeping with:	- Lane Keep Assist (LAS) - Assists the steering wheel operation when the system detects that your vehicle may be deviating from your lane	●	●
	- Blind Spot Assist - Assists steering operation when changing lanes when the system determines that your vehicle may collide with a vehicle from a rear side	●	●
Emergency Stop Signalling System (ESS)	If sudden braking is applied, the ESS rapidly flashes all the direction indicator lights to caution drivers behind your vehicle of the sudden braking situation	●	●
Emergency Tyre Repair Kit	Included with your Mazda is for a temporary repair of a slightly damaged flat tyre resulting from running over nails or similar sharp objects on the road surface. Perform the emergency flat tyre repair without removing the nail or similar sharp object which punctured the tyre	●	●
Forward Obstruction Warning (FOW)	Your vehicle keeps an eye on the road ahead and warns you with sounds and messages if it detects a possible collision. If you're following another vehicle too closely at higher speeds, you'll be reminded to keep a safe distance—helping you drive with confidence and peace of mind	●	●
Hill Launch Assist (HLA)	When setting off on an incline, helps prevent the car from rolling backwards when the driver moves their foot from the brake to the accelerator pedal.	●	●
ISOFIX Child Seat Anchorage	Attached to outer rear seats	●	●
Lane Departure Warning System (LDWS)	The system detects the line markings on the road surface and instantly warns you in case of unintentional lane departure	●	●
Passive Collision Signal	Helps protect you from unexpected rear impacts by warning you if another vehicle is approaching too quickly from behind—giving you time to stay alert and prepared	●	●

●= Standard equipment, – = Not available. Specification and naming conventions are subject to change.

EQUIPMENT

SAFETY AND SECURITY continued		TAKUMI	TAKUMI PLUS
Pre-crash safety: Smart Brake Support (SBS)	Smart Brake Support - Front (SBS) - SBS is designed to help avoid collisions and reduce damage by automatically applying the brakes when a potential impact is detected. Using advanced sensors and cameras, the system monitors the road ahead and intervenes if necessary to keep you safer	●	●
Pre-crash safety: Smart Brake Support Rear (SBS-R)	Smart Brake Support Rear (SBS-R) - designed to reduce the risk of accidents by helping the driver avoid rear-end collisions by applying automatic braking	●	●
Pre-crash safety: Smart Brake Support with Rear Crossing (SBS-RC)	Detects vehicles approaching from the rear left and right sides of the vehicle, and the rear of the vehicle while the vehicle is being reversed out of a parking space, and applies the brakes if an impact is possible	●	●
Rear Collision Warning (RCW)	Helps protect you from unexpected rear impacts by warning you if another vehicle is approaching too quickly from behind, giving you time to stay alert and prepared	●	●
Rear Cross Traffic Alert (RCTA)	Designed to help you make sure it's safe to start backing up. The system uses the same radars and indicators as BSM to watch for vehicles coming from both sides of your vehicle. When an oncoming vehicle is detected, it sounds a warning and applies the brakes if the system believes a collision may occur.	●	●
Remote Central Locking		●	●
Smart keyless entry	Allows opening and locking of the vehicle without removing the key from your pocket or bag	●	●
Smartphone Bluetooth® Key Sharing	Through the "Mazda 6e" App, up to three keys can be shared to allow access and to drive the vehicle	●	●
Seatbelt Reminder Audible Warning	Driver, passenger and rear seats	●	●
Secondary Collision Reduction	Following a collision, Secondary Collision Reduction helps minimise the risk of further impacts by automatically slowing the vehicle to a controlled stop. The brake lights and hazard warning lights activate to alert other road users, and the parking brake is applied once the vehicle comes to a standstill. If needed, the driver can override the system by pressing the accelerator	●	●
Speed Limit Assistant	Speed Limit Assistant helps you drive more safely by automatically adjusting vehicle speed in response to road conditions such as posted speed limits, curves, tunnels, and speed-controlled areas—supporting smoother, more confident driving	●	●
Alarm & Immobiliser	Thatcham approved immobiliser and an alarm meeting ECE requirements	●	●
Traffic Sign Recognition (TSR) with Intelligent Speed Assistance (ISA)	Utilising the front sensing camera and Navigation data, this system is designed to notify the driver of traffic signs by displaying them on the instrument panel and the head-up display. If the vehicle exceeds the recognised speed limit, an audible tone will be activated	●	●
Tyre Pressure Monitoring System (TPMS)	Monitors the air pressure of each tyre and informs the driver of a decrease in pressure when it becomes lower than the specified air pressure	●	●

●= Standard equipment, – = Not available. Specification and naming conventions are subject to change.

Rear headroom[3] / leg room / shoulder room (mm)		963 / 921 / 1,416
Cargo volume, acc. to VDA (l):	5-seat mode to belt line including underfloor storage[3]	337
	2-seat mode including underfloor storage[4]	1,074
	Front Storage Area	72
Brake Type - Front & Rear		Ventilated Discs
Brake Dimensions - Front / Rear (mm)		310 / 306

Steering	
Steering gear	Electric Power Assisted Steering (Rack and Pinion)
Wall to Wall turning circle (M)	11.6

[1] Vehicle width excludes mirrors. Figures in brackets includes mirrors opened.
[2] Values include driver at 75kg.
[3] To beltline.
[4] To ceiling.

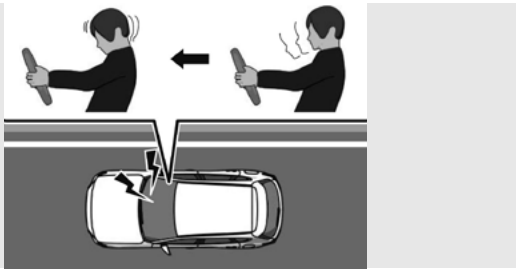

TECHNICAL INFORMATION

		78kWh EV 258ps Automatic
Electrification		
Battery Size (kWh)		78
Battery Type		Lithium-Ion
Battery Weight (kg)		550
Output (kW)	Maximum 30 minutes power	100
	Maximum hourly output	190
Transmission		
Type		1-speed Automatic
Performance		
Maximum power output ps (KW)		258 (190)
Max. torque (Nm)		290
Acceleration (0-62 mph in seconds)		7.9
Top Speed (mph)		109
Charging		
DC 195kW charger (10-80%)		24 minutes
DC 195kW charger (30-80%)		15 minutes
Mode 3 AC Charging (0-100%)	(Single Phase 7.2kW)	11 hours 48 minutes
Domestic Socket (20-80%)	(3-pin 2.4kw)	TBC
Energy Efficiency and CO_2 Emissions		
WLTP CO_2 emissions (g/km)	Combined	0
WLTP energy consumption (kWh/100km)	Combined	15.9
WLTP energy consumption (kWh/100km)	City	12.4
WLTP Range (miles)	Combined	348
WLTP Range (miles)	City	436
Weights		
Minimum Kerb weight (kg) excl. driver		2,015
Maximum Kerb weight (kg) incl. driver (75kg)		2,090
Permitted gross vehicle weight (kg)	Total	2,440
	Front/rear	1,050 / 1,390
Towing limit[1)] (kg)	Braked	1,500
Towing limit (kg)	Unbraked	750
Maximum roof load (kg)		0

All-new Mazda6e CO_2 emissions: 0g/km. Electric range up to 347.97 miles (WLTP). Range data has been determined according to WLTP test procedure methodology.
The range figure may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load. All figures quoted are derived from the latest WLTP test cycle.
[1)] Towing capacity is based on a 12% gradient and tested in accordance with 92/21/EEC as amended by 95/48/EC

ADVANCED SAFETY TECHNOLOGY

DRIVER MONITORING

Detects sleepiness or inattention by monitoring changes in expression or movement of the driver's line of sight. A camera and infrared LED monitor the driver's condition both day and night. If the system determines that the driver has fallen asleep or is inattentive, it sounds an alert to make the driver aware while also setting up for automatic braking to help prepare for a potential incident.

LARGE HEAD-UP DISPLAY (HUD)

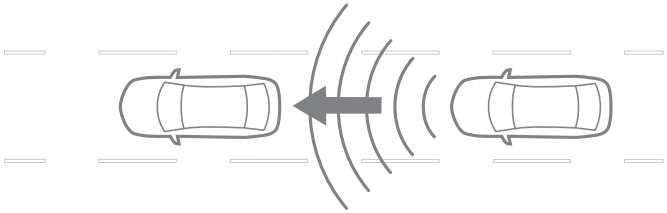

The system projects full-colour information directly onto the windscreen within the driver's line of sight. The displayed information includes Traffic Sign Recognition, Mazda navigation turn-by-turn directions, as well as vehicle status including current speed and advanced safety equipment status.

360° VIEW MONITOR WITH SEE-THROUGH VIEW AND SIDE VIEW MONITOR

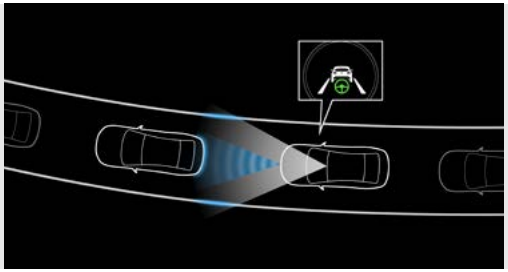

Displays a 360° image using front, side and rear cameras to assist in checking the area at the front, rear and sides of the vehicle when driving forward, parking or stopping. See-Through View provides a display of the front or rear of the vehicle as though it was transparent. Additionally, the Side View Monitor helps to navigate easier at slow speeds by displaying the direction of the leading wheel whilst indicating on the centre display.

ADVANCED SAFETY TECHNOLOGY

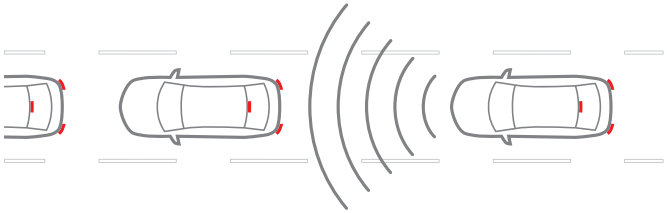

MAZDA RADAR CRUISE CONTROL

To activate, the driver sets a maximum speed (just as with cruise control) and size of the gap to maintain. The radar watches for traffic ahead and once the system senses a vehicle in front, the car will slow down and speed up automatically maintaining the drivers pre-set distance. The system also features 'Stop & Go' function, meaning the vehicle will automatically accelerate and brake in start/stop traffic with minimal input from the driver.

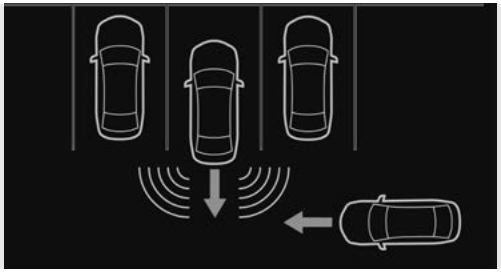

CRUISING & TRAFFIC SUPPORT (CTS)

Automatically operates acceleration and braking to maintain a proper trailing distance between your Mazda and the vehicle ahead. In addition, it assists with steering operations to keep the car within its lane. CTS contributes to reducing driver fatigue, as well as supporting a safer, more reassuring and more comfortable driving experience.

SMART BRAKE SUPPORT – FRONT WITH TURN-ACROSS TRAFFIC

SBS alerts the driver of a possible collision using the warning indications in the display, and a warning sound if the front radar sensor and Forward Sensing Camera determine that there is the possibility of a collision with a vehicle, pedestrian, or a bicycle ahead. Furthermore, if a collision is unavoidable, the automatic brake control is performed to reduce damage in the event of a collision. In addition, when the driver depresses the brake pedal, the brakes are applied firmly and quickly to assist.

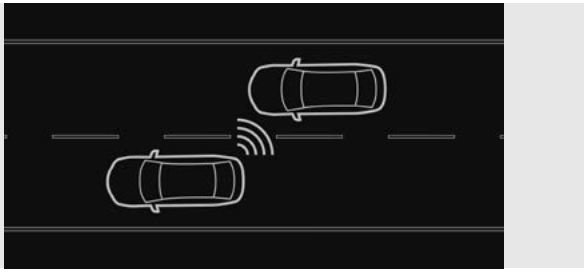

SMART BRAKE SUPPORT – REAR

Reduces damage in the event of a collision by operating the brake control when the system's sensors detect an obstruction at the rear.

SMART BRAKE SUPPORT – REAR CROSSING

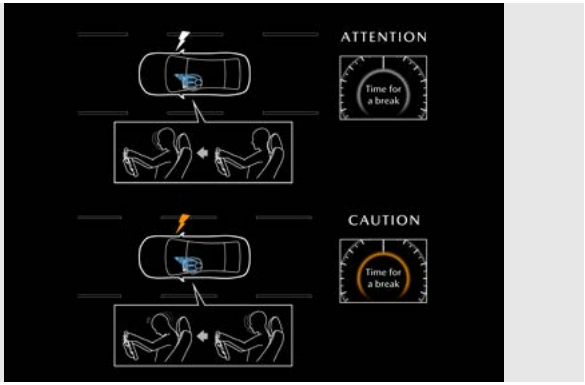

Assists in avoiding collisions and reducing damage whilst the vehicle is in reverse. If there is the possibility of an impact with a vehicle approaching from the rear, the system will apply the brakes.

ADVANCED SAFETY TECHNOLOGY

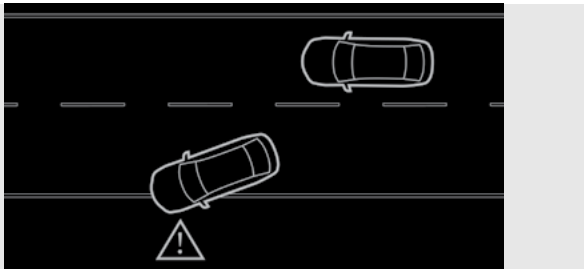

BLIND SPOT MONITORING (BSM) WITH REAR CROSS TRAFFIC ALERT (RCTA)

BSM uses radars mounted in the rear bumper to detect vehicles approaching from behind and in the adjacent lane. It alerts the driver to the presence of vehicles in the blind spot on either side by displaying an icon in the appropriate door mirror. If the driver indicates to change lanes with a vehicle in the blind spot, the icon flashes and a warning beep is sounded.

DRIVER ATTENTION ALERT

Designed to reduce accidents caused by inattentiveness due to driver fatigue. The system comes into play at speeds above 41mph and begins to “learn” the driver’s habits, watching inputs and the vehicle’s movements in the early stages before fatigue is a factor. Later, if the system detects changes in vehicle behaviour that suggest the driver may be losing concentration, it will suggest a rest stop by sounding a chime and displaying a warning in the Multi-Information Display.

LANE-KEEP ASSIST SYSTEM WITH LANE DEPARTURE WARNING SYSTEM

Designed to prevent your vehicle from inadvertently straying from its lane. A front view camera monitors the road ahead and calculates the cars position relative to the lane markings. If the system detects the vehicle is moving out of its lane unintentionally, the steering wheel will vibrate and an audible alert will sound. The system will also take corrective action to help you stay within the lanes through assisted steering.

EFFICIENT. RESPONSIBLE. READY.

In pursuit of a more sustainable future, without compromising the engaging and intuitive driving experience you expect from Mazda, we created the all-new Mazda6e. A fully electric evolution of an icon, the Mazda6e represents the next step in Mazda's journey towards zero-emission mobility.

Designed for drivers ready to embrace the electric lifestyle, the Mazda6e combines refined performance with intelligent efficiency. Powered by a high-capacity lithium-ion phosphate battery and advanced electric drivetrain, it delivers smooth, responsive acceleration and the quiet confidence that defines modern electric driving.

With fast-charging capability, the Mazda6e can recover 30 to 80% range in just 15 minutes[1], while offering up to 348 miles[1] of all-electric driving on a full charge. This ensures both everyday usability and the freedom for longer journeys, without compromise.

The Mazda6e also demonstrates outstanding environmental credentials, producing zero tailpipe emissions and enabling a more responsible way to drive, without sacrificing comfort, performance or driving enjoyment. It is the Mazda you know and trust, reimagined for a new electric era.

- The all-new Mazda6e is compatible with the most widely used charging standards, featuring a Type 2 connector for AC charging at home and public locations, as well as CCS for DC rapid charging on the go.
- When connected, the charging cable is fully weather resistant and will securely lock into the vehicle, so it can be left unattended with complete peace of mind in all conditions.
- The Mazda6e is supplied with a Type 2 Mode 3 cable for use with home chargers or public AC charge points. Using a dedicated home charger, the Mazda6e can charge at up to 7.2kW, providing a convenient and efficient solution for everyday charging with a 0 to 100% charge time of 11 hours and 48 minutes. While DC rapid charging is possible up to 195kW for short efficient stops when needed adding 10% to 80% in 24 minutes[1] or 30% to 80% in just 15 minutes[1]

[1] Figures shown are for comparability purposes; only compare fuel/energy consumption and CO_2 figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, accessories fitted (post-registration), variations in weather, driving styles and vehicle load, and use of features such as air conditioning or heated seats. All figures quoted are derived from the latest WLTP test cycle.^Charging times are based on an ambient temperature of 25°C and will vary depending on a variety of factors including the output of the charger being used, ambient temperature and battery state.

VEHICLE TAX RATES

VEHICLE TAX RATES TAX YEAR 2025-26

CO_2 EMISSIONS FIGURE (G/KM)	ALL CARS FIRST YEAR RATE	ALL CARS STANDARD RATE (12 months)
0	£10	£195
1-50	£110	£195
51-75	£130	£195
76-90	£270	£195
91-100	£350	£195
101-110	£390	£195
111-130	£440	£195
131-150	£540	£195
151-170	£1,360	£195
171-190	£2,190	£195
191-225	£3,300	£195
226-255	£4,680	£195
Over 255	£5,490	£195

First-year rate is paid when first registering a vehicle and is for the first 12 months Vehicle Excise Duty. After the first 12 months, the standard rate applicable at that time is payable. Vehicles with a list price >£40k will be subject to a premium of £425 over the Standard Rate for 5 years from the start of the second licence.

WARRANTY

All Mazda cars registered from 1st September 2025 will benefit from a six-year manufacturer's warranty, or 100,000 miles, whichever comes first.

6 YEAR | MAZDA WARRANTY

HIGH VOLTAGE BATTERY WARRANTY

MODEL	WARRANTY PERIOD
EV 258ps	8-year / 100,000 mile warranty

MAZDA SERVICES

The maximum service interval for your Mazda is 12,500 miles or 12 months whichever occurs first, however, the servicing intervals may reduce based on the style of driving and the conditions under which your vehicle is operated.

MAZDA FINANCIAL SERVICES

Mazda Financial Services offers a variety of finance and insurance products to suit the needs of both private and business customers. With our wide range of plans and services, no-one is more committed to delivering complete motoring confidence and total peace of mind than Mazda and Mazda Financial Services.†

MAZDA INSURANCE

When you buy your new Mazda from a Mazda franchised dealer, we'll give you free comprehensive Driveaway Insurance so you can get on the road there and then. Upgrade to our annual cover and benefit from our Mazda Accident Repair Promise all year round. In the event of an accident, unlike most other insurers, we guarantee to repair your Mazda at a Mazda Approved Bodyshop using only Mazda Genuine Parts. This helps to protect your Mazda's safety rating, resale value and manufacturer warranty. Plus, you'll also get windscreen damage cover, EU cover and a complimentary courtesy car. We'll even pay your cancellation fee if you're insured elsewhere*. Eligibility criteria, terms and conditions apply.

Ask your dealer or call Mazda Insurance on 0330 102 7995.

Get a quote online at www.mazdacarinsurance.co.uk

Mazda Insurance is arranged and administered by Verex Insurance Services Ltd which arranges policies from a panel of insurers.
*Offer not available online. Offer conditions apply.

FREE MAZDA ACCIDENT AFTERCARE

In the event of an accident, Call Mazda First 0800 015 0367 before your insurer for free 24-hour Accident AfterCare and to redeem your £250 Excess Return voucher. Our dedicated case handlers will liaise with your insurer and arrange Mazda Genuine Parts and repairs at a Mazda Approved Bodyshop, keeping your Mazda 100% Mazda and maintaining your Mazda warranties. We'll also provide accident recovery if your Mazda isn't driveable and a free courtesy car during the repair. Terms and conditions apply.

Save 0800 015 0367 to your mobile phone.

TAX FREE – DIPLOMATIC AND MILITARY SALES
For further information contact your Mazda dealer or contact Mazda on 03457 48 48 48.

MOTABILITY
For all Motability enquiries please contact your Mazda dealer or contact Mazda on 03457 48 48 48.

This price list, dated 11 February 2026, supersedes all previous price lists. It includes changes to Vehicle Excise Duty as confirmed in the Autumn 2024 budget affecting recommended 'On the Road' prices. Final prices shown are recommended 'On the Road' prices and are inclusive of number plates, 12 months' Vehicle Excise Duty and first registration fee. Certain models may be subject to changes in CO_2 emission levels and Vehicle Excise Duty Bands. Due to ongoing updates the specification (including fuel consumption, CO_2 emissions and equipment) of the vehicle you order and receive may be different to that detailed in this guide. Please speak to your dealer for the latest information. Images may not be to UK specification. †Subject to status to over 18s. Indemnities may be required. Terms apply. Mazda Financial Services.

YOUR MAZDA6e, YOUR WAY

Every journey in the all-new Mazda6e can be tailored to you. From checking battery levels to planning routes and managing charging, the apps help you unlock the full potential of your driving experience, making each trip more comfortable, connected, and rewarding.

MY MAZDA

The MyMazda App keeps your car, your journey, and your life in harmony. From checking vehicle health to scheduling service appointments, it puts essential information at your fingertips, helping you care for your Mazda with ease. It is more than an app, it is your personal connection to the car you love, keeping every journey smooth, worry free, and effortless.

MAZDA 6e

Designed specifically for the all-new Mazda6e, the dedicated app helps you make the most of your electric driving experience. Monitor battery levels, plan routes, and manage charging schedules from your smartphone, so you can stay connected, confident, and in control wherever the road takes you. Enhanced remote functionality adds convenience and clarity in one intuitive, elegant interface.

MAZDA CHARGING*

Take the stress out of charging with the Mazda Charging App. Locate nearby charging stations, check availability, and track charging progress in real time, all from the palm of your hand. By seamlessly integrating with your Mazda6e, it helps you plan journeys with confidence, giving you more time to enjoy the drive and less time worrying about the next charge.

*App launching later in 2026.

STAY IN TOUCH WITH MAZDA6e

Visit our website and use the Configurator to create your perfect version of the Mazda6e.
