KEY INFORMATION

PERFORMANCE

The All-New Mazda6e is powered by a 78kWh battery, meticulously engineered to deliver the ideal balance of performance, efficiency and real-world driving range. With 258ps and 290Nm of torque, supported by 195kW DC fast charging and a range of up to 348 miles*, Mazda6e offers refined electric performance with confidence for every journey.

TECHNOLOGY

A new generation of intelligent vehicle technology has been introduced, designed to enhance every aspect of the driving experience. With three selectable drive modes optimising performance for different conditions, and a comprehensive suite of connected services providing seamless integration with your digital life, Mazda6e keeps you informed, in control and effortlessly connected at all times.

SAFETY

Mazda6e is equipped with a comprehensive suite of advanced i-ACTIVSENSE safety technologies, designed to support confident and reassuring driving in every situation. Using a combination of intelligent driver assistance systems and active safety features, Mazda6e helps to monitor its surroundings, anticipate potential hazards and support the driver when it matters most.

PERSONALISATION

Mazda6e offers a high level of personalisation, allowing the driver to tailor key functions to suit their individual preferences. A customisable lower bar on the centre display provides quick access to frequently used features, while two programmable favourite buttons on the steering wheel enable intuitive control of essential functions without distraction.

VOICE & GESTURE CONTROL

Mazda6e introduces intelligent voice and gesture control, creating a more natural and intuitive way to interact with the vehicle. By allowing key functions to be operated through simple spoken commands and hand movements, Mazda6e supports a calmer, more focused driving experience.

SOUND SYSTEM

Mazda6e is equipped with a premium Sony 14-speaker surround sound system, designed to deliver an immersive and finely balanced listening experience. With two speakers integrated into the driver's headrest, sound is positioned precisely around the driver, creating a rich and engaging audio environment for every drive.

TOWING

Mazda6e delivers impressive towing capability, with a braked towing capacity of up to 1,500 kg, making it well suited to active lifestyles and leisure travel. From caravans to bike racks, Mazda6e offers the versatility to support every adventure.

CRAFTED WITH JAPANESE SOUL

FEBRUARY 2026

*Figures shown are for comparability purposes; only compare fuel/energy consumption and CO₂ figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, accessories fitted (post-registration), variations in weather, driving styles and vehicle load, and use of features such as air conditioning or heated seats. All figures quoted are derived from the latest WLTP test cycle. Charging times are based on an ambient temperature of 25°C and will vary depending on a variety of factors including the output of the charger being used, ambient temperature and battery state. Models shown may not be to UK specification.

^BIK tax figures quoted based on a per month cost in 2025/26 (except Scotland). BIK percentage applicable for 2025/26 tax year.

Colours and some exterior and/or interior elements may differ on screen from the actual model.

The official combined WLTP range for the Mazda6e is 347.968 miles, converted from 560 km. The Mazda6e is a full electric vehicle and requires electricity for charging.

Details correct at date of publish - February 2026. Not available in conjunction with any other offer unless specified.
